OPR: HQ AFSOC/LGSWE  
(MSgt Gary K. Jordan)  
Supersedes AFSOCI 23-202, 1 January 2001

Certified by: HQ AFSOC/LGS  
(Maj Mark A. Syzdek)  
Pages: 42  
Distribution: F

---

This instruction implements AFD 23-2, *Supplies and Materiel Management*. It establishes Air Force Special Operations Command (AFSOC) policy and procedures for equipping individuals with mobility bags for deployment. It provides policy for determining requirements, storing, issuing, accounting, and reporting mobility bag assets. It revises base level management of chemical warfare defense equipment (CWDE) under the Consolidated Mobility Bag Control Centers (CMBCC) using a "One Stock Record Account Number (SRAN), One Report" concept, tariff requirements, and type "A" mobility bag configuration. It also clarifies management of safety levels and gas mask accountability. All reporting requirements in this publication are exempt from licensing in accordance with AFI 33-324, para 2.11.10, "*The Information Collections and Reports Management Program; Controlling Internal, Public, and Inter-agency Air Force Information Collections.*"

This instruction applies to all AFSOC Chiefs of Supply and AFSOC units that store their own assets. It does not apply to the Air Force Reserve (AFRC) and to the Air National Guard (ANG) units. Send comments and suggested improvements on AF Form 847, Recommendation for Change of Publication, through channels to HQ AFSOC/LGS, Bldg 1, 100 Bartley St., Hurlburt Field, Florida.

**SUMMARY OF REVISIONS**

This revision incorporates a rewrite of the procedures involved with funding and requisitioning CWDE requirements.

<b>Chapter 1—GENERAL INFORMATION</b>	<b>5</b>

## Chapter 1

### GENERAL INFORMATION

#### 1.1. Policy:

1.1.1. AFMAN 23-110, *USAF Supply Manual*, AFI 32-4001, *Disaster Preparedness Planning and Operations*, and AFI 23-226, *Chemical Warfare Defense Equipment (CWDE) Consolidated Mobility Bag Management* form the basis for mobility bags management for AFSOC units as directed by this publication.

#### 1.2. Objective:

1.2.1. The Chief of Supply (COS) will accomplish the following objectives:

1.2.1.1. Maintain centralized, secure storage for mobility bags.

1.2.1.2. Provide base inventory control and accountability procedures (to include deployed assets).

1.2.1.3. Provide responsive reconstitution of assets returned from deployments.

#### 1.3. Scope:

1.3.1. The COS will:

1.3.1.1. Provide type A, B, and C mobility bags to support Unit Type Code (UTC) taskings only. The COS has the option to decentralize storage of A and B bags to outlying units. If this option is chosen, local procedures will be developed.

1.3.1.2. Ensure current shelf-life data, determine requirements, and report CWDE assets for all units geographically located on the installation under the host base supply Stock Record Account Number (SRAN). This includes all tenant units unless they report under their own SRAN (e.g., an ACC tenant).

1.3.1.2.1. Maintain accountability of all mobility bag assets in MICAS. **NOTE:** SOF-peculiar assets provided via USSOCOM special programs need not be tracked in MICAS and are exempt from status reporting.

1.3.1.2.2. Maintain accountability of all deployed assets.

1.3.2. The 353 SOG Mobility bag NCO is responsible for performing these tasks when not supported under an Intraservice Support Agreement (ISA) with the 18 SUPS/LGS.

1.3.3. Mobility bags for 352 SOG personnel are managed by 100 SUPS/LGS IAW the existing ISA.

1.3.4. The 720 STG determines mobility equipment requirements for Special Tactics and Combat Weather personnel. The standard A and B bags do not meet their mission needs and the substitution of non-standard items is authorized. Additional cold weather gear support is also included in UTC 81ECW. The standard C bag will be used to satisfy CWDE requirements.

#### 1.4. Applicability:

1.4.1. The procedures in this instruction apply to all AFSOC Chiefs of Supply, AFSOC units assigned to non-AFSOC bases, and AFSOC activities designated to store and maintain mobility bags and gas masks.

1.4.2. Waiver requests to this instruction must be coordinated through the local chain of command and submitted to HQ AFSOC/LGS via formal correspondence.

### **1.5. Relationship to Other Directives:**

1.5.1. This instruction provides AFSOC primary guidance for mobility bags. Other directives also apply (see [Attachment 1](#)).

### **1.6. Organizational Structure:**

1.6.1. HQ AFSOC/LGS is responsible for mobility bag management.

1.6.2. HQ AFSOC/LGS will provide policies and procedures in accordance with Air Force publications.

1.6.3. 16 SOW Base Supply Mobility Bag Element will provide mobility bag asset posture and requirements to HQ AFSOC/LGS when requested.

1.6.3.1. 16 SUPS/LGS will channel CWDE asset posture and requirements under the “One SRAN – One Report” concept IAW AFI 23-226.

1.6.3.2. Each unit authorized to store their own mobility bags and/or gas masks will provide asset posture and requirements to the 16 SOW Base Supply Mobility Bag Element.

### **1.7. Inter-/Intraservice Support Agreements (ISA):**

1.7.1. Management of mobility bag assets will be IAW AFMAN 23-110, Vol 2, Pt 2, Chapter 26, AFI 23-226, AFI 32-4001, and any existing ISAs.

1.7.2. Tenant AFSOC units that don't maintain their own mobility bags will ensure that all requirements published in this instruction are addressed in their ISA.

1.7.3. Tenant AFSOC units that store and maintain their own mobility bags must comply with this instruction and the following requirements:

1.7.3.1. Maintain accountability of all mobility bags assets in the Mobility Inventory Control and Accountability System (MICAS).

1.7.3.2. Provide CWDE asset posture to the host base supply, or to the 16 SOW Base Supply Mobility Bag Element if not supported by the host base supply.

1.7.3.3. Ensure mobility bags are reported in Status of Resource and Training System (SORTS) IAW AFI 10-201, *Status of Resources and Training System*.

1.7.4. The 16 SUPS/LGS, if tasked to store a tenant unit's mobility bags, will ensure the following:

1.7.4.1. Type A and B mobility bags are separated from AFSOC assets.

1.7.4.2. A separate Project Funds Management Record (PFMR) is established for financial accounting and maintenance of mobility assets.

1.7.4.3. Tenant unit is provided information as needed for reporting and budgeting shortages to their respective command.

1.7.4.4. Funding for tenant mobility bags is clearly identified in the ISA.

## **1.8. Training Requirements:**

1.8.1. Personnel assigned to the Mobility Bag Element may require specific training upon assignment to the section to carry out daily operations and ensure the movement of assets:

1.8.1.1. Pallet Build-up, provided by Transportation.

1.8.1.2. Vehicle and Material Handling Equipment, provided by unit Vehicle Control Officer.

1.8.1.3. MICAS operations, MICAS User's Manual.

1.8.1.4. Nuclear, Biological, Chemical Defense Training provided by the CE Readiness Flight.

## Chapter 2

### MOBILITY BAGS REPORTING

#### 2.1. Policy:

2.1.1. The COS maintains overall responsibility for reporting mobility bag assets. The base supply Mobility Bag Element will ensure the timely preparation, coordination, and submission of required reports. Various miscellaneous reports may be required at the request of HQ AFSOC/LGS.

#### 2.2. Nuclear, Biological, and Chemical (NBC) Defense:

2.2.1. Annual reports are required IAW the National Defense Authorization Act, Public Law No. 103-160, Section 1703, *Department of Defense NBC defense programs*.

#### 2.3. Mobility Bag Authorizations:

2.3.1. Annual requirement, NLT 1 January, submitted by Logistics Plans (see [Attachment 12](#)).

#### 2.4. Status of Resource and Training Systems (SORTS):

2.4.1. Submit monthly IAW AFI 10-201 and AFI 10-201, AFSOC Sup 1.

2.4.2. The Base Supply Mobility Bag Element is responsible to ensure the accurate submission of the mobility bag status for any Wing units for whom they are storing mobility bags.

2.4.3. Provide narrative remarks with estimated get well dates.

2.4.4. Give consideration to the quantity of gas masks on hand to constitute the complete configuration of the CWDE mobility bag.

2.4.5. AFSOC tenant units will ensure SORTS reporting is completed for mobility bag status.

#### 2.5. Mobility Inventory Control and Accountability System (MICAS):

2.5.1. Provide quarterly.

2.5.2. Provide asset posture on Type A, B, and C mobility bags to HQ AFSOC/LGS.

2.5.2.1. AFSOC tenant units, with the exception of 353 SOG, will provide the host COS with mobility bag reports.

2.5.3. The 353 SOG Mobility Bag NCO will submit quarterly mobility bag reports to 16 SUPS/LGS.

2.5.4. The 352 SOG Mobility NCO will coordinate with 100 SUPS/LGS, quarterly, to obtain a report of their mobility bag status and provide it to HQ AFSOC/LGS.

**NOTE:** IAW AFI 23-226, OCONUS-stored assets do not fall under the Consolidated Mobility Bag Control Center (CMBCC) concept. However, asset reports from the 353 and 352 SOGs will allow HQ AFSOC/CEX to obtain additional funding to support these units, if necessary.

#### 2.6. Asset Reporting to CMBCC:

2.6.1. Daily reporting for replenishment actions under MICAS (AFI 23-226).

**2.7. Annual Shelf-Life Visibility Report:**

2.7.1. The annual Shelf-Life visibility report will be sent directly to the respective CMBCC storage location with an information copy to HQ AFSOC/LGS.

## Chapter 3

### GENERAL MOBILITY BAG MANAGEMENT

#### 3.1. Policy:

3.1.1. HQ USAF has established three mobility bags: Type A (general purpose), Type B (cold weather) and Type C (chemical defense). Type C bags are required IAW AFI 32-4001 and AFI 23-226. The specific contents of each type mobility and organization bag are listed in [Attachment 4](#) through [Attachment 9](#). These mobility bags will be maintained in standard configuration IAW AFMAN 23-110. Type D organization bags are maintained by Aircrew Life Support as outlined in [Chapter 6](#). Units requiring additional nonstandard items are responsible for the funding, storage, and maintenance of those items as organizational equipment.

#### 3.2. Mobility Bag Authorizations:

3.2.1. Mobility bag authorizations are validated based upon Operations Plans (OPlan) and safety levels.

3.2.2. Logistics Plans Flight will submit mobility bag requirements annually NLT 1 January or within 60 days after the receipt of a revised or new OPlan, AFSOC tasking, or DOC statement (AFMAN 23-110, Vol 2, Pt 2, Chapter 26). This validation process is as follows:

3.2.2.1. Logistics Plans Flight will forward authorizations for type A, B, and C mobility bags to HQ AFSOC/LGX for validation.

3.2.2.1.1. HQ AFSOC/LGX/LGS will notify AFSOC bases/units of validated mobility bag authorizations via formal correspondence annually NLT 31 January.

3.2.2.1.2. The base supply Mobility Bag Element will be responsible for updating MICAS within 3 duty days with new authorizations in regards to tariff requirements (see [Attachment 2](#) and [Attachment 3](#)).

3.2.3. Safety levels are established in the War Mobilization Plan (WMP). Safety levels offset sizing problems related to tariff sizing, unforeseen notional taskings, and slight increases in authorizations.

3.2.3.1. Ten percent safety level is established for type A mobility bag.

3.2.3.2. Up to 20 percent safety level is established for type B mobility bag.

3.2.3.3. Ten percent safety level is established for type C mobility bag.

3.2.4. If existing mobility authorizations do not support mission requirements, i.e. notional taskings, Logistics Plans will coordinate an increase/decrease request via formal correspondence through their wing to HQ AFSOC/LGX/LGS.

3.2.5. Out of cycle reviews that warrant change (10 percent increase/decrease in authorizations) will be forwarded to HQ AFSOC/LGX/LGS for validation; otherwise, mobility bag authorizations will remain firm for one year.

#### 3.3. Mobility Bag Storage:

3.3.1. Mobility bags will normally be centrally stored by base supply. While exceptions exist as identified in this chapter, the COS maintains ultimate responsibility.

3.3.2. COS-maintained mobility bags will be stored in built-up configuration using tariff guidelines (see [Attachment 2](#) and [Attachment 3](#)). Other units may store bag components in any configuration that does not delay response times and complements maintenance requirements.

3.3.3. The Base Supply Mobility Bag Element will store and maintain all mobility bag safety levels, for the wing, with no exceptions.

3.3.4. Facility requirements for mobility bags are as follows:

3.3.4.1. Secure storage to prevent pilferage.

3.3.4.2. Meet required warehouse storage and fire standards IAW AFJMAN 23-210, *Joint Service Manual (JSM) for Storage and Materiel Handling* and T.O. 14P3-1-141, *Groundcrew Chemical Defense Ensemble*.

3.3.4.3. Facilitate the issue/deployment of mobility bags to effectively meet response times.

3.3.4.4. Facilitate the inspection of shelf-life assets.

3.3.5. Physical maintenance of mobility bags:

3.3.5.1. Mobility bags will have inventory lists, to include shelf-life data, affixed to each mobility bag; use AFTO Form 152, **Chemical Defense Ensemble Inspection Record**.

3.3.5.1.1. Pre-printed hand receipts may be used.

3.3.5.2. Mobility bags will not have permanent markings, i.e. squadron or type mobility bag identification.

3.3.5.3. Type A and B bags will be sealed using a lead seal (NSN 5340-00-292-0886) and hand press sealing tool (NSN 5120-00-237-6995). Other seals are acceptable as locally determined.

3.3.6. To support the "One SRAN, one report" concept, all units authorized to maintain mobility bags are required to maintain accountability in MICAS and provide the host base supply with asset posture and status.

3.3.6.1. The base supply Mobility Bag Element is responsible for consolidating all MICAS reports prior to submission.

3.3.6.2. Units storing mobility bags (to include AFSOC tenants) must comply with the policy and guidance established in this instruction.

3.3.6.2.1. The following units are authorized to maintain their own mobility bags:

3.3.6.2.1.1. EOD Teams.

3.3.6.2.1.2. Prime Beef.

3.3.6.2.1.3. Red Horse Civil Engineering Squadrons.

3.3.6.2.1.4. Combat Communication Groups.

3.3.6.2.1.5. Security Forces are authorized to maintain type A and B mobility bags only.

3.3.6.2.1.6. Special Tactics units assigned to the 720th Special Tactics Group.

### 3.4. Gas Mask Management:

3.4.1. Gas masks, equal to the total mobility authorization, will be centrally stored in the base supply Mobility Bag Element for real world requirements. Wing commanders may elect to issue gas masks to the units, however, safety levels for gas masks are not authorized to be issued to units.

3.4.2. Gas masks will not be stored in the C mobility bag.

3.4.3. Gas masks are managed under Due-In From Maintenance (DIFM) as expendability, recoverability, reparability, and cost designator (ERRCD) XF3, using normal supply procedures.

3.4.4. The base supply Mobility Bag Element will establish local procedures to account for gas masks issued under the wing commanders option.

3.4.5. Gas masks are budget code eight (8) and will be funded by the unit for any requirement over and above UTC taskings.

3.4.5.1. Organizations maintaining gas masks will report gas mask inventories in accordance with local procedures established by Base Supply. All gas masks, to include those purchased by units with O&M funds, will be accounted for in MICAS.

3.4.6. M17 type gas masks are required for X-Small sizes. When these gas masks are stored, ensure there are adequate parts for support, i.e. filters, hoods, and repair parts. **NOTE:** M-45 protective masks are scheduled to be purchased to support hard-to-fit personnel. Units receiving these masks will meet the same requirements as stated for the M17A2 above.

### 3.5. Training Gear:

3.5.1. Units will maintain sufficient training equipment to support training and exercise objectives. Air Force policy directs the use of unserviceable CWDE equipment for training purposes and strictly prohibits units from using serviceable assets for this purpose.

3.5.2. All training gear will be clearly marked in accordance with applicable technical orders.

3.5.3. Exception: The gas mask is the only operational equipment authorized for training purposes.

3.5.4. All training assets will be stored separately from serviceable equipment.

3.5.5. Commanders are responsible for unserviceable training assets issued to their organization.

3.5.5.1. Units will control and reconstitute training assets.

3.5.5.1.1. Units will identify shortfalls for training assets to the Base Supply Mobility Bag Element.

3.5.5.1.2. The Mobility Bag Element will consolidate base requirements and check for availability at Defense Reutilization and Marketing Office (DRMO) before forwarding requirements to HQ AFSOC/LGS.

### 3.6. Special Sized Equipment:

3.6.1. Follow special measurement clothing and footwear requisitioning instructions as outlined in AFMAN 23-110, Volume 2, Part 2, Chapter 23 and Volume 1, Part 1, Chapter 25 (i.e., X-Small gas mask and size 19 GVO). Orders must satisfy all four ensembles (full basis of issue) and an additional

ensemble for training purposes IAW AFI 32-4001. Funding will be unit O&M IAW [Chapter 5](#), this regulation.

3.6.2. Build the required mobility bag, affix an external tag that identifies the individual and store it separately in the Mobility Bag Element.

### 3.7. Non Tariffed Sizes:

3.7.1. Tariff recommendations were developed to support the average requirements. To provide flexibility for extreme size requirements, units are required to maintain a small quantity of these assets in bulk storage.

3.7.2. Maintain a minimum of 10 pair per size of GVO boots: sizes 3, 4, 15, 16, 17, and 18. **NOTE:** Sizes 15, 16, 17, and 18 GVO boots are currently being stocklisted.

3.7.3. Maintain a minimum of 20 suits per size of BDOs: sizes XX-Small and XX-Large.

### 3.8. Inspection/Shelf-Life:

3.8.1. The storing activity is responsible to perform visual and shelf-life inspections in accordance with applicable technical orders and Allowance Standard (AS) 016 (see [Attachment 1](#)).

3.8.2. Inspect the components of mobility bags at the time of initial assembly.

3.8.3. Inspect the components of mobility bags at the time of issue.

3.8.4. Ensure shelf-life procedures are followed IAW AFMAN 23-110, Volume 7, Part 3, AFI 23-226, and applicable technical orders.

3.8.4.1. Shelf-life data for the GVO boot is not physically identified on the boot; therefore, Shelf-life management of these assets requires specific attention.

3.8.4.1.1. Ensure all GVO boots are firmly sealed in the manufacturer's bag or similar plastic bag with shelf-life data clearly visible and firmly affixed to the package of each pair.

3.8.4.1.2. If the manufacturer provides the GVO boots in an unsealed bag, seal it with duct tape.

3.8.4.1.3. Seal any tears to the plastic bag with duct tape.

3.8.5. Document all inspections in MICAS.

3.8.6. Additional inspection requirements for gas masks are as follows:

3.8.6.1. Gas masks will be inspected immediately upon receipt and documented on DD Form 1574, **Serviceable Tag - Materiel**.

3.8.6.2. Organizations maintaining gas masks will perform inspections in accordance with applicable technical orders.

## Chapter 4

### GAS MASK SUPPORT KITS

#### 4.1. Policy:

4.1.1. Support kits are required for gas masks to perform daily maintenance and repairs at the deployed location. These kits are designed to provide initial 30-day support for the deployed unit and will be tailored to meet the quantity of individuals deploying. Reconstitution is required to prevent depletion of stock without replacement.

#### 4.2. Gas Mask Support Kit:

4.2.1. The base supply Mobility Bag Element will maintain sufficient assets to support total mobility bag authorizations. Kits will be tailored as required to meet the number of personnel tasked to deploy (see [Attachment 10](#)).

4.2.2. Gas mask support kit parts will be reconstituted upon return from deployment and when used for training. Kits will be reconstituted using O&M funds as outlined in [Chapter 5](#), this regulation.

## Chapter 5

### FUNDING AND REQUISITIONING MOBILITY BAG REQUIREMENTS

#### 5.1. Policy:

- 5.1.1. The Chief of Supply is responsible for ensuring the following actions are taken for mobility bag and support kit shortages under the management and control of supply.
- 5.1.2. Ensure the annual dollar requirements for mobility assets are included in the annual base financial plan (FINPLAN).
- 5.1.3. Budget for type A and B mobility bag initial and replacement requirements.
- 5.1.4. Fund for all special sized equipment requirements which are not stocklisted to include CWDE.
- 5.1.5. Ensure budget submissions for requirements reflect the appropriate host base and tenant organization MAJCOM information.

#### 5.2. Consolidated Mobility Bag Control Center (CMBCC):

- 5.2.1. CMBCC will fund for CWDE IAW AFI 23-226.
- 5.2.2. Replenishment actions will be based upon MICAS reporting and tariff authorizations.

#### 5.3. Unit Responsibilities:

- 5.3.1. Funds will be allocated to the established project funds management record (PFMR) and organization cost center record (OCCR) from the operating program in accordance with established budget and funding practices.
- 5.3.2. Each activity managing/maintaining mobility bags (host/tenant):
  - 5.3.2.1. Will establish a PFMR and OCCR exclusively for mobility bag requirements.
  - 5.3.2.2. Has the option to use shop code MK for type A and B mobility bags (aides identification of mobility requirements apart from non-mobility requirements), or one of their choosing.
  - 5.3.2.3. Has the option to use shop code CW for gas masks and gas mask support kit parts (aides identification of mobility requirements apart from non-mobility), or one of their choosing.
  - 5.3.2.4. If funding is insufficient to purchase all shortfalls, conduct the appropriate analysis to ensure the right items are ordered to establish the maximum number of complete mobility bags. Submit unfunded document as soon as possible through the Squadron Resource Advisor following the Comptroller-established format/timeline for unfunded submissions.
  - 5.3.2.5. Will use normal supply procedures to submit requisitions for mobility bag assets.
- 5.3.3. Prior to identifying funding shortfalls, the base supply Mobility Bag Element will request assistance from HQ AFSOC/LGS for possible redistribution of excess assets from other MAJCOMs.

#### 5.4. Reconstitution:

- 5.4.1. Base Supply Mobility Element will perform the following actions depending upon the situation in which mobility bags return from deployments or exercises.

5.4.1.1. Reconstituting bags returned to home station following deployments or exercises:

5.4.1.1.1. Replace missing/expired shelf life assets from available on-hand stocks. **NOTE:** This process entails doing a one-for-one swap. Issue processing through the Supply system should not occur since CWDE assets are stocked offline within the MICAS database.

5.4.1.1.2. If no on-hand stocks exist to replenish bag assets, follow the procedures outlined under section **5.3.**, “Unit Responsibilities.”

5.4.1.2. Accounting for bags not returned within 60 days of return to home station:

5.4.1.2.1. Ensure every attempt is made to recover the mobility bag(s).

5.4.1.2.2. For bags hand-receipted on either a bulk- or individual-issue basis, Base Supply will initiate DD Form 200, **Financial Liability Investigation of Property Loss** IAW AFMAN 23-220, *Reports of Survey for Air Force Property*.

## Chapter 6

### AIRCREW CHEMICAL DEFENSE EQUIPMENT (ACDE) ORGANIZATIONAL BAG, AND MOBILITY BAG REQUIREMENTS

#### 6.1. Policy:

6.1.1. HQ AFSOC/DOTL manages the ACDE Program as outlined in AFSOCI 11-301, *Aircrew Life Support Program*. Aircrew members require specialized equipment for in-flight operations in addition to the groundcrew ensembles.

6.1.2. Life Support manages and stores the following organizational bags for aircrew members. Refer to AFSOCI 11-301, for ACDE components and quantities.

6.1.2.1. Type D (bulk shipment) organizational bag.

6.1.2.1.1. A ten percent safety level is established to offset sizing problems related to tariff sizing, unforeseen notional tasking, and slight increases in authorizations.

6.1.3. The base supply Mobility Bag Element manages and stores the type C mobility bag for aircrew members.

#### 6.2. Aircrew Chemical Defense Ensemble (ACDE):

6.2.1. First and second generation eye/respiratory protection equipment is acceptable until the flying squadron receives their complete issue of second generation equipment. Once the complete basis of issue (BOI) of second generation equipment is received and all aircraft modified, if applicable, only second generation equipment will be used.

6.2.2. First and second generation, eye/respiratory protection equipment will not be mixed in the D organizational bags.

#### 6.3. Issue:

6.3.1. Aircrew CWDE will be issued IAW AFI 32-4001, AFSOCI 11-301, and this instruction.

6.3.2. Aircrew Life Support (ALS) sections are responsible for the inspection and maintenance of all ACDE. ALS sections will not inspect, store, or maintain accountability of the aircrews' ground CWDE.

6.3.3. Aircrew eye respiratory protection (AERP) equipment is the only operational equipment authorized for training purposes.

6.3.4. Pool (Bulk) and/or tariff issue is not authorized without specific approval of HQ AFSOC/DOTL.

6.3.5. The D bag will be bulk shipped.

#### 6.4. Accountability:

6.4.1. ALS will account for all assets.

6.4.2. All ACDE assets maintained in the units for inflight and ground operations will be accounted for and reported IAW Public Law No. 103-160, Section 1703.

**6.5. Storage Requirements:**

6.5.1. ALS will assemble and maintain one individually fitted D-bag for each aircrew member subject to deployment to a high or low threat area. These bags will be stored in environmentally controlled areas.

**6.6. Funding:**

6.6.1. Replenishment requirements will be funded as follows:

6.6.2. Units are required to report D-bag shortages and overages to HQ AFSOC/DOTL.

6.6.3. Aircrew Life Support superintendents will provide HQ AFSOC/DOTL funding requirements for all ACDE items required to support assigned aircrew.

6.6.4. HQ AFSOC/DOTL will provide HQ AFSOC/CEX funding requirements for D organizational bags.

## Chapter 7

### SECURITY FORCES MOBILITY BAG MANAGEMENT

#### 7.1. Policy:

7.1.1. HQ AFSOC/SFOO manages the Security Force's mobility bag program through the wing's Security Forces Squadron. Due to mission requirements, Security Forces maintains organizational mobility bags and is authorized to substitute the standard items. If at any time the Security Forces returns the physical control of mobility bags to the COS, Security Forces will be required to return mobility bags to the standard configuration or provide equivalent funds to procure shortages. All Security Forces units are required to maintain mobility bags in accordance with this instruction.

#### 7.2. Mobility Bags:

7.2.1. Store and maintain mobility bag requirements as follows:

7.2.1.1. Organization unique A bag (see [Attachment 8](#)).

7.2.1.2. Organization unique B bag (see [Attachment 9](#)).

7.2.1.3. Maintain accountability of all assets in MICAS.

7.2.1.4. Provide monthly status reports to Base Supply Mobility Bag Element for inclusion in SORTS reporting.

7.2.1.5. Provide status on complete type A and B mobility bags, not individual line items.

7.2.2. The Base Supply Mobility Bag Element will maintain and store C-1 mobility bags.

## Chapter 8

### ISSUE, DEPLOYMENT, AND RECONSTITUTION OF MOBILITY BAGS

#### 8.1. Policy:

8.1.1. The COS is responsible for the deployment of mobility bags stored in base supply and will maintain accountability of deployed assets. Custodial responsibilities will be assigned to ensure accountability is maintained throughout the deployment.

#### 8.2. Individual Issue of Bags:

8.2.1. Deploying individuals will inspect and sign for mobility bags acknowledging serviceability and accountability using AF Form 1297, **Temporary Issue Receipt**, or equivalent.

8.2.2. Place a copy of the hand receipt inside of the mobility bag.

8.2.3. Base Supply Mobility Bag Element will maintain an additional copy of the hand receipt pending reconstitution.

#### 8.3. Bulk Issue of Bags:

8.3.1. The deploying commander will designate an individual to accept accountability/responsibility for bulk shipped mobility bags.

8.3.2. Only type A-B-C mobility bags and D organizational bags are authorized for bulk issue. **NOTE:** C-1 (mini C) will be issued to the deploying individual and hand carried.

8.3.2.1. Base Supply or storing activity will provide hand receipts (AF Form 1297) to the deploying commander and/or troop commander for type A and B mobility bags.

8.3.2.2. Base Supply or storing activity will retain one copy of the hand receipt signed by the deploying commander to update MICAS.

8.3.3. Ensure mobility bags are returned to the storage activity upon return to home station for reconstitution.

8.3.4. Type D organizational bags will be returned to the appropriate life support section.

KENT A. MUELLER, Colonel, USAF  
Director of Logistics

## TARIFF SIZING CHART (TYPE B - BAG)

**A2.1. B - Bag Tariff.**

The following is a recommended tariff. A separate tariff is provided for mukluk boots. Units will need to use a combination of narrow, regular, and wide bunny boot sizes. Additionally, sock sizes run two sizes larger than the boot and are available in sizes 7 through 14. Smaller or larger sock sizes must be special ordered.

**Table A2.1. B - Bag Tariff Chart with Bunny Boots.**

BAG TARIFF	BAG SIZE	MITTEN SIZE	BUNNY BOOT TARIFF	BUNNY BOOT SIZE	SOCK SIZE	CAP SIZE

## MCU 2A/P GAS MASK SUPPORT KIT (SUPPORTS 1-10 MASKS)

**A10.1. Gas Mask Support Kit Contents.**

Use assets from the 10% safety level to satisfy these requirements. The gas mask support kit consists of the following items.

**Table A10.1. Gas Mask Support Kit Configuration.**

ITEM	NSN	QTY	REMARKS
Harness, Head	4240-01-223-7313	3 EA	
Deflector, Air	4240-01-286-1842	1 EA	
Disc, Inlet	4240-01-224-6336	1 BX	Quantity Unit Pack per box is 10 each
Body, Inlet Valve	4820-01-226-7005	2 EA	
Tube, Drinking Internal	4240-01-286-1843	2 EA	
Tube, Drinking External	4240-01-286-1841	4 EA	
Cover, Outlet Valve	4240-01-241-4913	1 EA	
Disc, Outlet Valve	4240-01-334-6824	2 EA	Quantity Unit Pack per box is 10 each
Ring, Side Retaining	5365-01-222-3145	4 EA	
Voicemitter, Side	4240-01-224-4198	4 EA	
Gasket, Voicemitter	5330-01-260-8702	4 EA	
Valve, Disc Nosecup	4240-01-246-1996	2 EA	
Nosecup, Seat Valve	4820-01-286-1833	3 EA	
Microphone Element	5965-00-843-9957	1 EA	
Screw, Self Locking	5305-01-040-4682	2 EA	
Carrier	4240-01-224-4196	1 EA	
Waterproof Bag	4240-00-803-5839	1 EA	
Strap, Rubber	4240-01-223-7312	2 EA	
Outsert, Clear (Small)	4240-01-224-4195	1 EA	
Outsert Clear (Med - Lg)	4240-01-224-4197	2 EA	
Outsert Tinted (Small)	4240-01-247-9107	1 EA	
Outsert Tinted (Med - Lg)	4240-01-249-4438	2 EA	
Facepiece Assy (Small)	4240-01-415-4239	2 EA	Per 100 individuals deploying
Facepiece Assy (Medium)	4240-01-415-4240	2 EA	Per 100 individuals deploying
Facepiece Assy (Large)	4240-01-415-4241	2 EA	Per 100 individuals deploying.

## SAMPLE MOBILITY BAG AUTHORIZATION REPORT

**A12.1. Sample letter establishing mobility bag authorizations.**

This sample letter provides the format for report submission.

**DEPARTMENT OF THE AIR FORCE  
HEADQUARTERS 16th SPECIAL OPERATIONS (AFSOC)**

10 May 99

MEMORANDUM FOR 16 SUPS/LGSC

FROM: 16 SOW/XPD

SUBJECT: Mobility Bag Authorizations

1. The following mobility bag authorization information is provided IAW AFI 10-403, paragraph 2.1.3. and AFMAN 23-110. These quantities are based on our review of PSEUDO PIDS KWPMs and VFKWP affecting the 16 SOW.

a. Type A, B, and C bags:

Most stringent requirement	3961
10% additive for sized items	264
Total Authorized	4255

b. The 10 percent applies to B and C bags due to sized terms in each. The total reflects 96 bags for HQ AFSOC.

c, The 9<sup>th</sup> SOS and 16 MXS are stationed at Eglin AFB, and the bags are kept at Eglin AFB.

2. Direct any questions to A. W. Gartman, ext 4-3494 or SSgt Cannington, ext 4-3199.

// signed //

A. W. GARTMAN, GS-12, USAF

Deputy Chief, War Plans and Programs
